 - GRASS / LANDSCAPED AREA
 - TREES / SHRUBS
 - PATH

OPTION 4

- * Introduction of new Tea Kitchen to the interior of the Church.
- * Font relocated to the front of the Church.
- * A small extension is created to provide an accessible WC, which can be accessed directly from the Church.
- * Room for storage at the back of the Church, which would not cause much obstruction to activities.
- * Impact to heritage asset of extension minimised by keeping extension to minimum area and detailing it to match the existing Church.

Things to consider...

- + More space within the Church is created by the WC being provided within an extension.
- + Kitchen and WC accessible from inside the Church.
- + New elements to the Church - such as the Kitchen and new interior door leading to WC - to be in keeping with existing Church features.
- WC extension is potentially more expensive than locating within the existing building.

OPTION 4 - VISUAL 1
Exterior visualisation of front of Church, illustrating the new extension being in-keeping with the existing building fabric.

OPTION 4 - VISUAL 2
Interior of Church with new internal door, leading to accessible WC.

OPTION 4 - VISUAL 3
Exterior view of WC extension to the Church.
